

At the Cutting Edge: Leveraging Innovation to Advance Your Career

February 26, 2018

12:30 – 2:00 pm

Room 1005 (Moot Court) in the Ignat Kaneff Building (Osgoode Hall Law School)

LUNCH WILL BE SERVED FROM 12:30 PM

The practice of law is changing and technology is disrupting the delivery of legal services. The pressure to provide a better, faster and cheaper product is mounting, both in private practice and the public domain.

How can you adapt to and thrive in this rapidly changing legal landscape? What new skills do you need to land your dream job and excel in your workplace? What tools can you use to help you navigate your career path?

Osler, Hoskin & Harcourt LLP, a leading business law firm practising nationally and internationally from its offices in Canada and New York, and the Winkler Institute for Dispute Resolution invite you to explore these issues and more!

Join us on February 26 to learn about the cutting-edge legal innovations being implemented at Canada's top firms and have your burning questions answered by a panel of professionals.

Nicole Aylwin from the Winkler Institute will moderate a panel discussion, followed by half an hour of Q&A and discussion.
